

The "No Bull" Test

We could talk till we are blue in the face about all the research, statistics, and years of open water testing that went into developing MagnaBait but there is nothing more convincing than testing something for yourself. So do your own open water testing. Just open and print your own NO BULL TEST form (click on the link "No Bull Test" to print your own copy) and use it to see for yourself just how well MagnaBait works!

We are so convinced you will love it that we give you a three month no hassle money back guarantee! With this kind of gurantee you can't afford not to try it out for yourself. See just how many more, and how much larger fish you catch are, just by using MagnaBait. If you think MagnaBait does not actually help you catch more and larger fish, then send it back to us, no questions asked, for a full refund. You cannot find a fairer deal than this! And when you start catching those bigger fish we want you to send us pictures of you with your fish and tell us your story so we can put it on our website.
